

New Mexico Gas Company Native American Energy Efficiency Program

New Mexico Gas Company has designed an energy efficiency program for tribal communities. Working with the Santa Clara Pueblo Housing Authority, the project will begin July 2022. EnergyWorks will conduct the Energy Assessments and provide the Efficiency Services.

Energy Assessments

EnergyWorks will conduct an energy assessment of your home to identify eligible services.

1 to 1.5 hours per home

Resident or designee 18 years or older present

Energy Assessment Includes: Gas Safety Inspection, Air Leakage Testing, and Infrared Camera Review

Assessment will determine the services based on energy savings

Schedule Energy Efficiency Services

Energy Efficiency Services

EnergyWorks will provide all eligible energy efficiency services for no-cost.

1 to 6 hours per home

Resident or designee 18 years or older present

New Mexico Gas Account Name and Number

Depending on the assessment, you may receive:

Air Sealing – Weather Stripping, Caulk Windows, Seal Penetrations

Duct Sealing – Seal duct work joints, connections, and vents

Water Heating Conservation – Faucet Aerators and Showerheads

Water Heating Insulation – Tank and Pipe Insulation

Programmable Thermostat

Attic Insulation

Carbon Monoxide Detector
